獨特專利技術的結晶：HOCHIKI的警報器。

跨越一個世紀的防災製造廠商，我們濃縮了100年的技術與經驗，推出新世代住宅用火災警報器。除了可以清楚辨別是火警的煙還是水蒸氣這樣基本的功能與品質外，亦極盡追求設計感與使用上的便利性。

The intelligent system adapts sensitivity and functioning of your smoke alarm by testing your environmental conditions. Resulting in enhanced safety and reduces false alarms.

Type	Smoke
Sensor	Optical Smoke (sensitivity type II)
Model	SS-2LT
Where to Install	Indoor
LED	Red, Fire Alarm
Voice Alert	Two-stage frequency plus voice alarm
Sound Level	About 90 dB/m 2-2kHz
Stop Alarm	Press the front button
Alarm Phase Time	About 14 minutes

Type	Smoke
Power Source	3V Lithium Battery
Voltage	DC 3V
Battery Life	About 10 years (depends on usage)
Surrounding Temp.	0-40°C (non-condensing)
Size	(W) 94.5mm x (H) 94.5mm x (D) 27.5mm (Base included)
Weight	About 100g (battery and base included)
Color	Ivory (deglossed)
Installation Tools	Screws x 2 ; Plaster Nails x 3 ; Base x 1 ; Manual (Warranty)
Manufactured in	Japan

Important Notice

- Warning: Do not open device. Do not drop or impact. This will result in malfunction.
- This device is limited to detecting smoke within the open area in which it is situated. A closed door between the smoke alarm and the source of smoke may result in smoke not being detected.
- Smoke rises. Therefore if smoke is present at a level higher than the location of the smoke alarm, then detection might take a longer time to activate.
- Sometimes cooking, cigarette smoke or steam from bathroom can activate the alarm.
- Aerosol cans (e.g. insect repellent, hairspray) and water vapour (e.g. humidifier, vapourizer) can cause false alarms. Press button to stop the alarm. False alarm will otherwise stop automatically.

- All photos are for reference only.
- All Technical Information is provided by Manufacturer. The Dealer is not held responsible for any inaccuracies in the data.
