Battery Operated **FIREX** Photo-Electric Smoke Alarm

Model # P9050

UL217

Sensitive to slow smoldering fires

Easy Installation

- ✚ Twist off mounting for fast installation.
- ✚ Tamper resist locking pin will deter battery and alarm theft.
- ✚ Alarm requires no wiring.
- ✚ Battery powered with included 9V battery.

User-Friendly Features

- ✚ Photoelectric sensor responds fastest to slow smoldering fires often caused by smoking, woodstoves or fireplaces.
- ✚ Hush button allows you to quickly silence nuisance alarms.
- ✚ Test button tests smoke alarm circuitry and horn.
- ✚ Flashing red light flashes every 30 to 40 seconds to indicate that alarm is receiving power.
- ✚ Low battery indicator. In the event of a low battery, the smoke alarm will sound a warning chirp.
- ✚ Loud piercing (85 decibels) will alert you quickly.

The smoke alarm should be mounted:

1. On a vertical face whenever possible.
2. As close to sleeping area as possible.
3. DO NOT locate smoke alarms close to exhaust fans or air conditioning units, which could draw smoke away from the alarm.

Smoke alarms properly installed and maintained are an essential part of a good home fire safety programme.

Review fire hazards and eliminate dangerous conditions whenever possible.
